Hi Tammy,

Thank you for reaching out to us. We are working on your request and will have an answer for you soon. When we get community requests, many go through the Congressmen. I will let you know when I have an answer for you.

Sincerely,

Liz Blackburn

Subject: Mold in a Hotel

Hello Ms. Blackburn,

I am forwarding a complaint we received about a hotel in Port Lavaca, Texas. We received a complaint via the Texas Department of State Health Services. DSHS received a call from someone staying at the Americas Best Value Inn located at 2100 N. Hwy 35 in Port Lavaca. Complainant stated the room was in horrible condition with wet carpet and mold. The complaint was forwarded to our office September 14th. On September 28th I stopped by the location. I drove around the building and noticed all the rooms on the second floor on the back side of the building had roof damage (room numbers 231-251) and rooms 217 and 219. I asked to speak to the manager, Fisher Hwang but he was not available. I left my contact information and have not received a call. I asked the person working the front desk if they have families staying in the hotel because they were displaced due to the hurricane and he replied yes. He checked his computer system and there were no rooms that were blocked off due to structural damage.

Thank you,

Tammy Fikac, RS, CFM
